

Building Information Modelling (BIM) Seminar/Workshops

29 January 2015

9.30am - 1pm

NRC have organised a BIM Seminar / Workshops for Contractors, Designers & Suppliers who wish to gain a better understanding of BIM. The adoption of BIM is mandated in the UK for March 2016 & will apply to all centrally procured projects.

There is no trigger threshold for value, size or complexity of project - Level 2 BIM should be adopted where it will offer a positive return on investment. Consequently, if your future workload is likely to come out of central UK government (or you sub-contract to companies who do) then you need to be 'BIM enabled'. This means that not only do you have to be BIM aware; you may need to demonstrate your understanding and capability in the bids you submit to get a chance of securing the work.

BIM Seminar Programme

- 9:30 - 09:45** Tea/Coffee and Registration
- 09:45 - 10:45** **BIM Overview - Declan Heggarty NRC Tutor and Chartered Building Consultant**
What is BIM? How will it affect contractors/suppliers
- 10:45 - 11:45** **NAVISWorks Demonstration - Pentagon Solutions**
Pentagon Solutions will demonstrate the Navisworks software to show how to perform the following tasks using this platform: Construction programming & planning; Cost control (quantification and cash flow forecasting)
- 11:45 - 12:00** Tea/Coffee & Refreshments.
- 12:00 - 13:00** **Workshops**
- Workshop 1 - Software - Pentagon Solutions**
Attendees can enquire further about the Navisworks software and its capabilities.
- Workshop 2 - Contractors**
WDR & RT Taggart - BIM for Contractors
Contractors can ask questions to professionals who are currently involved in BIM projects on site.
- Workshop 3 - Suppliers - Chris Okure**
Chris will talk to suppliers and explain how they can get their products BIM enabled.
- 13:00** **Photographs**

BIM Seminar

Northern Regional College Union Street Coleraine BT52 1QA
