

Kilwaughter Minerals Limited have a Maintenance Engineering apprenticeship vacancy, you will gain hands-on experience and formal training in either mechanical or electrical engineering (depending on your pathway).

- You will be enrolled in a level 2 or Level 3 in Mechanical or Electrical Engineering.
- If you have already achieved a level 3 there may be the opportunity to complete a Higher level Apprenticeship in Mechanical or Electrical Engineering, depending on qualifications already achieved.
- You will receive on-the-job training as well as day-release to a local college or training provider.
- Progression opportunities available within the company upon successful completion of the apprenticeship.
- Fully funded training and support towards your qualification.

What we need:

Previous maintenance experience isn't essential to us; however, we are interested in a friendly and enthusiastic individual who is eager to learn and develop their skills within the area of maintenance. Other skills that are desirable to us include;

Essential:

- Good planning and organisational skills
- Excellent attention to detail
- A keen interest in engineering and problem-solving.
- Computer literate with all of Microsoft Office packages
- Strong interpersonal, teamwork and communication skills
- Willingness to learn and take on new challenges.
- Punctual, reliable, and committed to completing the apprenticeship.

Desirable:

- Previous hands-on experience (e.g., through a school project or hobby).
- Knowledge of basic tools or workshop equipment.
- A full UK driving license (depending on location or travel requirements).

If you are interested in applying applications should be submitted via with a CV and cover page to humanresources@kilwaughter.com by Monday 1st September 2025.

If you match our criteria, we will be in touch to discuss your experience and more about you as a person, we look forward to hearing from you!
