# Entrepreneurship Club

As a student at the college you are working towards a specific qualification, but your end goal may be different from that of others....

Develop a new business idea

Be a self-employed business owner

Work as a freelancer

Launch a product or service

Grow an existing business

**NORTHERN**  
Regional College

The College's virtual Entrepreneurship Club can help...

Whether you have a business idea or just thinking about it the college Entrepreneurship Club can provide you with the support you need to get started and grow an enterprise. The club offers you unique access to events, support, courses, product design, and much more to get your business started.

During your time as a student you can participate in a range of activities including:

### Entrepreneurship Education

Additional courses of study that are entrepreneurship focused leading to certificated modules and qualifications

### Entrepreneurship Experience

Ideas Generation Workshops leading to business feasibility and planning support, product design and prototyping and access to workspace

### Entrepreneurship Networks

Access to support agencies, organisations, programmes and funding opportunities designed to give you additional skills, insights and business contacts

Through the Entrepreneurship Club students can explore and road test their ideas including access to mentors and excellent facilities to bring those ideas to reality. You have the potential to start your learning journey as a student and complete as a business owner.
